SAN ANTONIO RADIO CLUB BULLETIN
June 1978

SPECIAL FIELD DAY EDITION
Jim Wright, K5CDT, Special Editor

The San Antonio Radio Club meets at 7:30 P.M. on the first and third Fridays of each month at the Red Cross Building, 90 Brees Boulevard, San Antonio, Texas.

Field Day 1978 will take place Saturday and Sunday June 24 and 25 at W. W. McAllister Park (formerly Northeast Preserve) which is located on Jones-Maltsberger Road just north of Blossom Athletic Center. Complete rules may be found in May 1978 QST on page 78.

The regular San Antonio Radio Club meeting on June 16, 1978 will be devoted to finalizing plans for Field Day. All amateurs and others interested in participating in the year's biggest event are urged to attend this meeting. Attendance at this meeting is not required to participate, but would be helpful. Membership in the San Antonio Radio Club or any other amateur radio organization is by no means a requirement to participate in Field Day.

Bill Lynch, WB5ZJC, is 1978 Field Day Chairman. Bill has assembled a very able committee, but he is in need of many more volunteers to assure success. Assistance is needed with the Saturday evening meal being sponsored by the San Antonio Repeater Organization and the Sunday morning breakfast. Operators and loggers are needed, especially but not exclusively, at the CW stations where contacts will count double. Technician and novice class licensees are urged to participate in operation of the novice band station. Operation of this station will give novices and technicians the opportunity to get in some real operating time which will assist them in gaining the confidence with CW required to upgrade to a high class license.

Anyone who has not volunteered should contact Bill Lynch, WB5ZJC, at the June 16 planning meeting or call him at 494-8135.

Editorially, all of us should remember the purpose of Field Day is primarily to demonstrate to ourselves and the public our ability to provide communication in times of emergency and secondarily to place high in a national contest. Show your loyalty to amateur radio by volunteering to do whatever is necessary to make 1978 Field Day a success.
